

Are You And Your Family At Risk?

- ① Was your home built before 1978?
- ② Do you have children under six years of age?
- ③ Is a member of your household pregnant?
- ④ Are you planning to do any home improvements, interior or exterior painting or other work that will disturb painted surfaces?
- ⑤ Are there any plumbing or roof leaks?

If you answered YES to any of these questions, you need to understand more about lead in order to prevent lead-based paint poisoning.
